18	72	50	22	61.0				
19	59	33	26	46.0		0.18		Max. can not see second dighit
20	49	28	21	38.5				Max. can not see second dighit
21	54	35	19	44.5		0.52		
22	49	43	6	46.0		0.16		Max. can not see second dighit
23	82	40	42	61.0		1.04		
24	59	32	27	45.5				Max. can not see second dighit
25	42	34	8	38.0				
26	53	27	26	40.0				
27	42	24	18	33.0		0.05		
28	48	16	32	32.0		0.14		
TOTAL	1526	881	645.0	1203.5	0.0	6.15	0.0	The Richmond Times had a mean of 49.5 °F
Number	28	28	28	28				
AVE.	54.50	31.46	23.04	42.98	Precip given as 6.11			This copy of the newspaper was the worst of all the years.
MAX.	82	50	45	61.0				I could still make out the ten's column on the maximums but not
MIN.	39	16	2	31.0				the units in some cases. Because the newspaper average
								was so much higher than mine I placed a nine in the units
								column where I couldn't read it and my ave came out 42.98
								I can not see how the newspaper got 49.5 for Feb so I used the
<=32 °F	0	16	<=32 °F					43.43 °F but this is a very poor copy.
>=90°F	0	0	>70 °F
