

## Weather Guide Calendar with Phenomenal Weather Events 2012

Ref (Weather Guide Calendar with Phenomenal Weather Events 2011 Accord Publishing, USA)

December 1<sup>st</sup>, 2006

A major ice and sleet storm blanketed St. Louis, Missouri area. Greater than 500,000 homes and businesses were without power at the end of the storm. For many people this was the second occasion in six months power was lost for any prolonged period of time due to extreme weather.

December 6, 2010

Impressive, particularly considering records go back to 1902. Syracuse, New York (a snowy location for starters) didn't merely get 1 daily record snowfall but had a three day in a row record. Today's calendar day record snow was 12.2 inches which was followed by a record 9.2 inches and then 14.9 inches on the 8th.

December 9, 2009

When you have lightning and thunder during a snow usually the snow is heavy. Such conditions with 50 mile-per-hour winds occurred in Green Bay Wisconsin 8 to 16 inches of snow were common in central, Eastern, Central and NE Wisconsin. Green Bay had 14.7 inches which set a December record and was the six largest snowfall on record.

December 13, 1992

From the 11<sup>th</sup> to 13<sup>th</sup> Massachusetts was raked by great northeasterly winds to 78 mph; in Boston on the 12<sup>th</sup> coastal waves were 23 feet. Snow to 4 feet; drifts to 10 feet in parts of the Berkshires. Some West Massachusetts schools were closed for a week.

December 27, 2003

A major winter storm whitened Montana with near record amounts that fell in central and eastern sections. 48 inches of snow fell near Millegan, Montana 24-hour record with 53 inches of snow near Shonkin, Montana. Most roads in eastern Montana were closed many snow plows were stuck and thousands of travelers were stranded from the accident.

December 31, 2010. A woman died when her car was picked up and slammed into a concrete highway divider by an F-3 tornado in Fenton, MO. A state trooper's car was lifted several feet by the storm; he said he saw other cars in the air with him at the same time.
